A little hard work never hurt anyone? Not so sure that's what the children of Israel would say, but God had a plan that included a little hard work for them—part of that refiner's fire! He was preparing them to enter the promised land. God chooses to work in ways that we often times don't understand until we are looking back and see His handiwork and how all of the pieces of the puzzle fit together. The exciting part is that there is still more to come as we go through this life preparing for The Promised Land, eternity with God. We will look at the children of Israel, their labors, their exodus, their wanderings, their entering the promised land. Were they ready to go there? That's all in God's hands and He is likewise preparing us for the day we, too, shall enter. It should give us great comfort to know God is steering this course we are on and giving us truth to stand on when we are scared or feel that the burden is just too great to bear. It is always when we look back to see where He has brought us from that we realize His sovereign plan and know that it is good.

Please call the church office (993-1305) or fill out a registration form to let us know you are coming. We will accept registration at the door, but would like to be prepared as much as possible. Please bring your friends!
